

2022 Cost-Share Application

Important notes regarding cost-share:

1. Homegrown seed **must** be tested for germ & purity.
2. Cost-share rates are \$15/acre for winter-hardy cover crops or \$10/acre for winterkill cover crops.
 - a. First-time cover crop users receive an additional \$5/acre.
3. Seeding cutoff dates for winterkill cover crops, as well as minimum seeding rates for **all** cover crops, must be followed in order to receive payment.
4. A signed application and W-9 Form must be submitted for assistance applications to be processed!

Grower Information:

First & Last Name: _____

Phone Number: _____ E-mail Address: _____

Street Address: _____

City, State, Zip: _____

Seed Corn Company/Companies you grow for: _____

Have you used cover crops before? Y N

Are you interested in cost-share for edge-of-field water quality practices (bioreactors, saturated buffers, water quality wetlands, etc.)? Y N

Field Information (for multiple fields, please separate with commas)

County: _____

Section, Township, & Range: _____

Quarter Section: _____

Number of acres of cover crops on seed corn acres: _____

What cover crop and seeding method are you planning on using this fall? _____

Will you be utilizing your cover crop for feeding livestock? Y N

Are you using cover crops elsewhere in your operation, and on approximately how many acres? _____
